EDUCATION

PHINMA ARAULLO UNIVERSITY

Bachelor of Science in Information Technology | 2025 - Present

Alejandro E. Judan National High School

Humanities and Social Sciences | 2024 - 2025

SKILLS

* HTML (75%) * CSS (69%) * JavaScript (56%) * Python (78%) * Java (83%)

* UI/UX Design (75%) * Problem Solving (93%)

PROFILE

Information Technology student with a strong interest in building modern, functional, and user-focused digital solutions. Experienced in front-end technologies including HTML, CSS, and JavaScript. Continuously expanding knowledge in backend development and database systems. Focused on web development and interface design with attention to user experience. Passionate about cybersecurity, ethical hacking, threat analysis, and vulnerability assessment.

PROJECTS

Art Exhibit Website

HTML/CSS, UI Design

A visually engaging website designed to showcase various artworks in a structured and interactive online gallery. Highlights artist information, artwork details, and exhibition themes.

Attendance Tracer

Python, Database

A simple yet functional system designed to record and manage student attendance efficiently. Allows users to track daily attendance, view records, and ensure organized data management.

Portfolio Website

Modern Web, Cybersecurity

A personal website that serves as a digital profile showcasing skills, projects, and background information. Designed with modern UI, responsive layout, and organized content sections.

INTERESTS

Exploring how technology shapes modern life and creating practical and innovative solutions. Interested in
